### EDUCATION

#### University (Associate degree in Web Programming )

2025 - Present

Passerellesnumeriques Cambodia

#### High school (bacall 2024)

2018 - 2024

Taveng high school

### TECHNICAL SKILLS

- HTML | CSS |
- JavaScript
- PHP | Laravel
- Vue.js | Node.js
- Next Js
- Python (basic)
- Data Anysis

### SOFT SKILLS

- Communication
- Teamwork
- Problem Solving
- Adaptability
- Patience
- Responsibility
- Adaptability

### TOOLS

- Github | Jira
- Docker | Mobaxterm (Basic)
- Postman | Zaproxy
- AWS (EC2, S3)
- Netlify | Vercel
- Firebase | Supabase (Basic)

### LANGUAGES

- Khmer (Mother tongue)
- English (Intermediate )

### ABOUT ME

My name is Talab Reach, a second-year student at Passerelles Numériques Cambodia (PNC). I am passionate about web development and have experience building web applications through academic projects. I am eager to improve my skills and gain practical experience as a Web Developer. I enjoy learning technologies, and creating user-friendly solutions.

### PROJECTS EXPERIENCE

#### Kamrieng High School (VC2) 01 July 2026 - 30 July 2026

- Developed the Kamrieng High School website to provide information about the school, including news, announcements, student activities, and contact details through a user-friendly platform.
- Performed roles as a QA Tester and Web Developer, developing system features, testing functionality, identifying bugs, and ensuring overall software quality.
- Developed a web application using Next.js with Firebase and Supabase for backend services, and deployed the project on Vercel.

#### Service Selling Unique Ring (VC1) 07 Feb 2026 - 07 Mar 2026

- Developed the Unique Ring platform to verify relationship status using a specially registered ring.
- Performed roles as a QA and Developer, ensuring system quality and functionality.
- Used React.js, Node.js, MySQL, GitHub, Jira, and deployed on AWS.

#### Task Management System 22 Dec 2025 - 06 Jan 2026

- Designed and developed a task management system using JavaScript.
- Implemented features such as adding, editing, deleting, and updating tasks.
- Built a user-friendly interface using HTML, CSS, and JavaScript, and used GitHub for version control.

### Hobbies & Interests

- Exploring new web technologies and development trends
- Learning modern programming languages and frameworks
- Practicing problem-solving and coding challenges
- Building responsive and user-friendly web applications
- Creating small personal web development projects
- Exploring UI/UX design principles
- Staying updated with the latest web development innovations
