- HTML
- CSS, SASS
- Javascript
- PHP
- Node Js
- OOP
- Data Anysis

Soft Skills

- Time/Task Management
- Problem-Solving
- Teamwork
- Leadership
- Good Communication
- Adaptability

PERSONAL DETAIL

I am Talab Reach, I am a second-year student at PNC and a passionate web developer. I have experience building responsive websites using technologies such as HTML, CSS, and JavaScript. I enjoy learning new tools and continuously improving my skills to create modern and user-friendly web applications.

SCHOOL PROJECT EXPERIENCES

Service Selling Unique Ring (VC1)

Feb 2025 - Mar 2026

- Developed the Unique Ring platform to verify relationship status using a specially registered ring.
- Performed roles as a QA and Developer, ensuring system quality and functionality.
- Used React.js, Node.js, MySQL, GitHub, Jira, and deployed on AWS.

Task managemet System

22 Dec 2025 - 06 Jan 2026

- Designed and developed a task management system using JavaScript.
- Implemented features such as adding, editing, deleting, and updating tasks.
- Built a user-friendly interface using HTML, CSS, and JavaScript, and used GitHub for version control.
- <https://vermillion-salmiakki-402c25.netlify.app>

Personal Portfolio

20 October 2025-31 October 2025

- Developed the project step by step using technologies such as HTML, CSS, JavaScript.
- Explored and applied new design styles and concepts that I had not used before.
- <https://portfolio-reach-ten.vercel.app/>

Create Website

August 2025- September 2025

- Developed a website focused on English education
- Built the website independently using HTML and CSS, and used GitHub for version control.
- <https://project-web2025-flax.vercel.app/index.html>

Tools

- Github
- Jira
- MySQL
- AWS/Ubuntu
- Excel/Postman
- Netlify/Vercel

LANGUAGES

- English (Intermediate)
- Khmer (Mather Tongue)

Design Ptoject

Mar 2025 - Apr 2025

- Developed a gym application that helps users exercise more easily and effectively.
- Led the project as Team Lead, using Figma to design and develop interactive prototypes.
- In the end, we successfully developed the application and met approximately 80% of the teacher’s requirements.

HOBBIES & INTERESTS

- Learning new technologies and programming languages
- UI/UX design exploration (Figma)
- Problem-solving and coding challenges
- Team collaboration and project development
- Staying updated with modern web trends
